SUMMARY

Frontend Developer and IT-AIML undergraduate with hands-on experience in building responsive web interfaces, PHP-MySQL based web applications, automation workflows, and structured academic projects. Strong foundation in DSA, DBMS, OOP, and practical software development.

EDUCATION

Bharati Vidyapeeth College of Engineering	2023 – 2027
<i>B.Tech in Information Technology - AIML CGPA: 8.42/10</i>	<i>Delhi</i>
SRDAV Public School, CBSE Class XII	2022 – 2023
<i>Percentage: 83.4%</i>	<i>Delhi</i>
SRDAV Public School, CBSE Class X	2020 – 2021
<i>Percentage: 90.8%</i>	<i>Delhi</i>

RELEVANT COURSEWORK

Data Structures and Algorithms | DBMS | Operating Systems | Artificial Intelligence | OOP | Computer Networks | Software Engineering | Web Technologies

EXPERIENCE

Reliant Surveyors, New Delhi	June 2025 – July 2025
<i>Frontend and Quality Assurance Intern</i>	<i>Delhi</i>
- Built responsive web pages using HTML, CSS, JavaScript, and Bootstrap with focus on clean layouts and usability. - Automated Google Sheets workflows, reducing manual reporting effort by 40%. - Performed UI testing, identified layout issues, and supported improvements in application reliability.	

PROJECTS

Engineering Admission Portal <i>PHP, MySQL, HTML, CSS, JavaScript, XAMPP, phpMyAdmin</i>	
- Developed a full-stack admission management portal with student registration, login, course browsing, and application submission workflows. - Implemented secure form handling, input validation, session/cookie-based authentication, and database operations using prepared SQL statements. - Designed dynamic course and application pages to display programme details, seats, fees, application numbers, and admission status. - Created a structured MySQL schema for users, courses, and applications with relational mapping and status tracking.	
AlertVision <i>Python, TensorFlow, Keras, OpenCV, CNN, FFA-Net</i>	
- Worked on an AI-based smoke dehazing project aimed at improving visibility in fire rescue environments. - Studied FFA-Net architecture with channel and pixel attention mechanisms for image restoration. - Used the RESIDE dataset and evaluated dehazing performance using PSNR and SSIM metrics. - Contributed to documentation, workflow design, result interpretation, and project presentation.	
Smart Desktop Assistant <i>C++, OOP, File Handling, Automation</i>	
- Developed a command-based desktop assistant to automate system operations and common web tasks. - Implemented application launching, browser actions, note management, command logging, and file handling features. - Applied OOP principles to create a modular command-processing flow with improved code organization.	
Portfolio Website <i>HTML, CSS, JavaScript, React.js</i>	
- Designed and developed a responsive personal portfolio to showcase projects, skills, education, and contact details. - Enhanced the interface with smooth navigation, reusable sections, interactive UI elements, and beginner-friendly React.js components.	

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Python, PHP, SQL
Web Technologies: HTML5, CSS3, JavaScript, Bootstrap, React.js, PHP, MySQL
Tools and Platforms: Git, GitHub, VS Code, XAMPP, phpMyAdmin, Google Sheets Automation
Core Concepts: DSA, OOP, DBMS, CRUD Operations, Authentication, Form Validation, Responsive Design

LEADERSHIP AND EXTRACURRICULAR ACTIVITIES

Venuva, BVCOE, GGSIPU	2025 – Present
<i>Secretary</i>	<i>Delhi</i>
- Led planning and execution of college events through effective coordination, communication, and team management. - Managed event documentation, meetings, and operational workflows to ensure smooth execution.	
Google Developer Student Clubs	2025 – Present
<i>Event Management Head</i>	<i>Delhi</i>
- Organized technical workshops and student events by handling logistics, planning, and execution. - Coordinated with speakers, volunteers, and team members to deliver well-structured technical sessions.
